

C List of Exhibits MEDICA 1999

Please put a cross by your products.

If you name more than one, please indicate your main product area.

Company: _____

Date: _____

Town: _____

Signature: _____

	Electromedical equipment/ Medical technology	1.54	Thermography devices		<i>Haematology/Histology/Cytology</i>
		1.55	Transcutaneous nerve stimulation	4.3.1	hematology Reagents
1.1	Suction devices	1.56	Ultrasonic devices for diagnosis	4.3.2	Haemostasis Reagents (Coagulation)
1.2	Anaesthetic equipment	1.57	Ultrasonic devices for treatment	4.3.3	Histo/Logy/Cytology Reagents
1.3	Audiometers	1.58	Ultraviolet and infrared radiation equipment	4.3.4	Immunohaematology ('Blood grouping')
1.4	Respiration equipment		Thermotherapy systems (HF)	4.3.5	Lymphokines/Immunomodulators
1.5	Imaging equipment	1.59	Other electronic medical, medical-technical devices and appliances	4.3.6	Monoclonal Antibodies for CL Surface Antigens
1.6	Blood Flow Measurement	1.60		4.3.7	Tissue Typing Reagents
1.7	Blood Pressure Equipment			4.3.8	Other hematology
1.8	Surgical Instruments		Laboratory Equipment		
1.9	Computerized tomography (CT)		Analyzer appliances		<i>Microbiology (Culture)</i>
1.10	Diagnostic instruments and apparatus	2.1	Evaluation appliances	4.4.1	Bacteriology
1.11	Dialysis equipment	2.2	Incubators	4.4.2	Bacteriology - Identification & Susceptibility Testing
1.12	Electro-acupuncture equipment and accessories	2.3	Automatic dyeing units	4.4.3	Controls/Standards/Calibrators - Microbiology
1.13	Electrosurgical instruments (HF)	2.4	Microscopes	4.4.3	Microbiology
1.14	Electroencephalographs	2.5	Microtomes	4.4.4	Mycology
1.15	Electrocardiography (ECG) and accessories	2.6	Osmometers	4.4.4	Parasitology (Microbiology)
		2.7	Pumps	4.4.5	Rapid tests - Microbiology
1.16	Electro-therapy equipment	2.8	Rotatory evaporators	4.4.6	Virus cultures
1.17	Endoscopes and accessories	2.9	Agitators	4.4.7	
1.18	Occupational health	2.10	Shaking and mixing units		<i>Infectious Immunology</i>
1.19	Fibre optics for medical technology	2.11	Centrifuges		Bacteriology - Infectious Immunology
1.20	Fetal monitoring	2.12	Further laboratory equipment	4.5.1	Hepatitis Viruses
1.21	Equipment for function assessment	2.13		4.5.2	Controls/Standards/Calibrators - Infect. Immunology
1.22	Equipment and accessories for minimally invasive surgery		Rescue and emergency equipment	4.5.3	
			First-aid equipment	4.5.4	Parasitology (Infectious Immunology)
1.23	Hot air apparatus	3.1	Rescue helicopters and aircraft	4.5.5	Retroviruses
1.24	Cardiac catheterization equipment	3.2	Rescue equipment and appliances	4.5.6	Rapid tests - Infectious Immunology
1.25	Pacemakers (implantable)	3.3	Ambulances/rescue vehicles	4.5.7	Other infectious Immunology
1.26	Infusion technology	3.4	Medical simulators and equipment	4.5.8	Other virology (Infectious immunology)
1.27	Implants	3.5			
1.28	Inhaler and aerosol appliances		Diagnostics		
1.29	Incubators		Reagents/Devices/Systems		Drugs
1.30	Cardiac therapy equipment including non implantable pacemakers		Clinical Chemistry		Slimming Drugs
1.31	Catheters	4.1.1	DNA diagnosis kits	5.1	Alternative forms of therapy
1.32	Colposcopy	4.1.2	Enzymes	5.2	
1.33	Ambulatory ECG recording and analysis equipment	4.1.3	Electrodes and Biosensors	5.3	AnaLeptics and anti-hypoxaemic drugs
		4.1.4	Electrolytes (without electrodes)	5.4	Analeptics and anti-phlogistics
1.34	Laser surgery equipment	4.1.5	Gene tests	5.5	Anti-allergic drugs
1.35	Laser myography	4.1.6	Controls/Standards/calibrators Clinical Chemistry	5.6	Antibiotics and chemotherapeutic drugs
1.36	Laser therapy equipment		Rapid tests - Clinical Chemistry	5.7	Antidotes
		4.1.7	Substrates	5.8	Anti-parasitic drugs
1.37	Lithotripsy	4.1.8	Other Clinical Chemistry	5.9	Antiseptics and Disinfectants
1.38	Pulmonary function diagnostics	4.1.9		5.10	Dermatological preparations
1.39	Magnetic resonance tomography (M R)		<i>Immunochemistry (Immunology)</i>	5.11	Dietetic and nutritional agents
		4.2.1	Allergies	5.12	Enzymes and their inhibitors
1.40	Medical Lighting	4.2.2	Anemia Rated/Vitamin tests	5.13	Geriatric drugs
1.41	Microscopes	4.2.3	Auto-immune Diseases	5.14	Gynecological drugs
1.42	Nuclear medicine	4.2.4	FertiLity/Pregnancy Hormones/Proteins	5.15	Hematology drugs
1.43	Operating Microscopes		Thyroid Function Hormones	5.16	Cardiovascular drugs
1.44	Optical filters	4.2.5	Individual and Specified Hormones	5.17	Endocrine drugs
1.45	Patient monitoring systems/Measuring stations	4.2.6	Controls/Standards/Calibrators Immunochimistry	5.18	Immunotherapeutic drugs
1.46	Stimulation equipment for diagnostics/therapy	4.2.7	Drugs of Abuse/toxicology	5.19	Infusion solutions and standard injection solutions
1.47	X-ray devices and accessories	4.2.8	Rheumatoid Diseases	5.20	Drugs for Liver and ga[t bladder disease
1.48	Oxygen equipment	4.2.9	Specific Organ Function Assays		
1.49	Self monitoring	4.2.10	Specific Proteins		
1.50	Sterilization and disinfection equipment	4.2.11	Rapid tests - Immunochemistry		
1.51	Sterilization accessories	4.2.12
